

GGITS Fee Structure & Financial Guide

Gyan Ganga Institute of Technology and Sciences, Jabalpur • Research-based report • September 2026

Important: GGITS official sources currently show fee figures from different documents and periods. Therefore, this report clearly separates the figures by source instead of claiming that one old figure is the confirmed fee for every 2026–27 student. Before payment, verify your exact programme and batch fee with the GGITS Fees Office.

1. Official Fee Information Found

Official source	Published fee information
GGITS Mandatory Disclosure	■70,000 per year; ■35,000 per semester; other fee listed as NIL in that disclosure.
GGITS Check List document	Tuition fee ■27,500 per semester; University Development Fee ■540; Caution Money ■1,500; unif

2. Fee Calculation Based on the Check List Document

Charge	Amount	Nature
Tuition Fee	■27,500 per semester	Academic fee
University Development Fee	■540	Additional institutional/university charge
Caution Money	■1,500	Usually a one-time/security-type charge; verify refund rules
Uniform – Boys	■2,900	One-time/initial charge
Uniform – Girls	■2,500	One-time/initial charge
Bus Fee	■7,500	Optional
Hostel Fee	■15,000	Optional; verify whether this is the complete applicable hostel charge

Illustrative first-semester total

Using only the figures listed in the Check List: ■27,500 tuition + ■540 development fee + ■1,500 caution money = **■29,540** before uniform, transport or hostel. For a boy including the listed uniform, the illustrative amount becomes **■32,440**. For a girl including the listed uniform, it becomes **■32,040**. These are calculations from the published checklist figures, not a substitute for a current fee demand letter.

3. Engineering/B.Tech Fee Reference

GGITS's current official admission page lists B.Tech programmes including CSE, CSBS, Data Science, AI & ML, IoT & Cybersecurity with Blockchain, Robotics & Artificial Intelligence, ECE, EE, EEE, Mechanical and Civil Engineering. The mandatory disclosure gives an institution-level figure of ■70,000 per year / ■35,000 per semester, while the checklist gives ■27,500 tuition per semester plus specified additional charges.

Because the official sources do not provide a single clearly labelled 2026–27 branch-wise fee table in the material located during this research, the exact payable amount for a specific branch should be confirmed directly with GGITS.

4. Four-Year B.Tech Cost Illustration

If the mandatory disclosure figure of ■70,000 per year is applied unchanged for four academic years, the tuition-level estimate is **■2,80,000 for four years**. This does not necessarily include future fee revisions, hostel, transport, uniform, caution/security deposits or other applicable charges.

If using the checklist's ₹27,500-per-semester tuition figure for eight semesters, tuition alone would be ₹2,20,000, before additional charges. The difference between these official documents is exactly why a current batch-specific fee confirmation is essential.

5. Scholarship Information – Major Financial Support

GGITS officially publishes government scholarship information. Eligibility depends on category, income, domicile, academic criteria and applicable government rules. Scholarship amounts are credited according to the scheme rules and are not automatically guaranteed to every student.

Scheme / Category	Examples of published amounts
OBC	B.Tech: ₹30,000 in 1st year; ₹30,844 in 2nd–4th year. Published income limit: up to ₹3,00,000/year, subject to academic/communit
SC	B.Tech: ₹75,000 in 1st year; ₹77,000 in 2nd–4th year. Published income limit: up to ₹6,00,000/year, subject to academic/communit
ST	B.Tech: ₹75,000 in 1st year; ₹77,000 in 2nd–4th year. Published income limit: up to ₹6,00,000/year, subject to academic/communit
Minority Scholarship	₹25,000/year on merit-based criteria; published conditions include income and qualifying academic/communit
Central Sector Scholarship	₹12,000/year for eligible students under the published criteria.
Mukhyamantri Medhavi Vidyarthi Yojana	Full tuition fee as per government norms for eligible candidates.
Gaon Ki Beti / Pratibha Kiran	₹7,500/year under the published eligibility conditions.

6. Other Courses and Fee Information

The official scholarship page publishes course-specific scholarship sanction amounts for B.Pharmacy, D.Pharmacy, MCA, MBA, MBA FinTech, MBA Business Analytics and M.Tech. However, scholarship sanction amounts should **not** be treated as the same thing as the official course fee structure.

For these programmes, this research did not locate a single current official 2026–27 fee table that clearly states the exact payable tuition for every programme and semester. The safest approach is to obtain the current fee demand/fee circular from GGITS before making a financial decision.

7. How to Verify Your Exact Current Fee

- Ask for the written fee structure for your programme and admission batch (for example, B.Tech AI & Robotics 2026–27).
- Ask whether the amount is per semester or per academic year.
- Confirm all one-time charges separately: caution money, development/university fee, uniform and admission-related charges.
- Confirm whether hostel and transport fees are optional and what services are included.
- Ask whether scholarship is credited to the student, adjusted against fees, or processed separately.
- Keep the official receipt and current fee circular/document.

8. Official GGITS Contact for Fee Verification

Fees Office	9406761125
General Toll-Free	18008898050
Admissions / WhatsApp	9425323089 / 9893556449
Email	contact@ggits.org
Address	Tilwara Ghat Road, Near Bargi Hills, Jabalpur, Madhya Pradesh – 482003

Final Conclusion

The available official GGITS documents provide useful fee references but do not all show the same figure. The strongest conclusion is that **■70,000/year (■35,000/semester)** appears in the mandatory disclosure, while a separate official checklist lists **■27,500 tuition per semester** plus specified charges. Therefore, for the latest 2026–27 admission batch, students should obtain a written programme-specific fee structure directly from GGITS before payment.
